Date received:	10/4/96
Date completed:	10/24/01
Project duration:	5 years, 3 weeks
Contaminant(s):	Hexane
Media addressed:	Surface soils, subsurface soils, and groundwater
Cleanup Objectives Achieved:	VRP 1996 Tier II Nonresidential
Deed/Land use restrictions:	Property to remain nonresidential

Project Description: The site entered the program to address the release of a Hexane from an aboveground storage tank system in 1995. The release occurred along the west bank of the St. Mary's River. Sediment and soil sampling conducted indicates that all detections of Hexane are below the Tier II Residential Closure levels. Groundwater concentrations have attenuated over time to levels below Tier II Nonresidential Closure goals. No remediation was necessary.
